Top First-Year-Flowering Perennials

KieftSeed™

# Kieft Seed

## It's Easy to Expand Your Presence in the Perennials Market

Perennials are long-time favorites among retailers, landscapers and home gardeners, but you may have found them challenging to grow.

Kieft Seed offers you easy solutions!

These first-year-flowering perennials are programmable and easy to produce. Their uniform habits and flowering times let you schedule, grow and ship them right alongside your Spring annuals - and expand your presence in this ever-popular market segment.

These winter-hardy varieties can also be grown traditionally - overwintered or with vernalized plugs.

Check out this amazing line-up of innovative varieties, all carefully bred for solid performance in the greenhouse and stunning beauty in the garden. When you're ready to order (and we bet you'll want to do that soon!), contact your preferred sales rep.

# Early-Season-Flowering Varieties: Starting Week 11 (South) - Week 15 (North)

Variety	Bloom Date	Plug Crop Time	Grow on Temp. (F)	Vernalization Treatment (weeks)	Transplant to Finish	Height	Spread	USDA Hardiness Zones	Description	Colors
